

Covid 19 Tracker User Experience

User Interface:

- Users must login (or create an account if not logged in already)
- Parents may add younger children and answer on their behalf. In this case, students don't have to enroll because the parent has already enrolled them

Elementary School Children:

Parents/guardians may register younger children and answer on their behalf.

Multiple children may be added under the same parent/guardian.

1. Answers to “Do you have Symptom” Questions (from CDC):

- YES:** Second prompt will happen asking user to confirm
- If user confirms a STOP message will display
- Only an administrator can clear a STOP message

2. User will be asked if they have been in contact with anyone with symptoms or diagnosed

3. A “body temperature” optional question can be turned on – or turned off

NO: User will get a green light to proceed
