

1. Student pictures are placed in a folder called DistrictPicts within the Nutrikids folder (may be called POSData) which resides on a server.
 - pictures need to be in a jpeg format
 - Pictures of students need to be named as their Student ID numbers
2. POS Manager
 - go to S.L. Data
 - select Transfer Pictures to S.L.
3. POS Serving Line
 - log onto the POS Serving Line program
 - tap on Refresh Student Pictures
